PROFESSIONAL SUMMARY

High-impact Software Engineer with 3+ years of experience specializing in scalable backend architecture and full-stack development. Proven track record of leading technical initiatives, optimizing complex systems, and delivering high-traffic SaaS solutions. Expert in leveraging Ruby on Rails, Node.js, and cloud infrastructure to solve critical business problems, enhance system reliability, and reduce operational costs.

TECHNICAL EXPERTISE

- **Backend Architecture:** Ruby on Rails, Node.js, ASP.NET, C++, Python (FastAPI), Microservices.
- **Frontend Development:** React.js, Next.js, TypeScript, Tailwind CSS, State Management.
- **Infrastructure & DevOps:** AWS, Docker, Nginx, PostgreSQL, Redis, CI/CD pipelines, Database Query Optimization.
- **System Design:** Asynchronous Processing (Sidekiq), RESTful API Design, Technical Leadership, Code Review.

PROFESSIONAL EXPERIENCE

Nascenia Ltd

Dec 2023 – Present

Software Engineer

- Spearheaded the architecture of high-traffic backend services, ensuring 99.9% system uptime for enterprise-grade SaaS platforms.
- Optimized database queries and backend logic for key ERP solutions, achieving a 30% reduction in execution time for high-volume operations.
- Engineered a secure, asynchronous PDF reporting engine, improving report generation speed by 40%.
- Directed the migration of legacy service modules to optimized Rails architectures, significantly improving maintainability.

Kalpas Innovations Pvt. Ltd.

Dec 2021 – Mar 2022

React Developer (Intern)

- Architected reusable UI components for complex dashboards, reducing frontend development lifecycle by 25%.
- Developed instructor scheduling and course management platforms, optimizing state management for faster page loads.

LEADERSHIP & METHODOLOGY

- **Technical Direction:** Guided engineering teams and led critical architectural and technical decisions for core projects.
- **Code Quality & Review:** Conducted thorough code reviews to ensure adherence to high engineering, performance, and security standards.
- **Cross-Functional Collaboration:** Partnered closely with business teams to align technical strategies with organizational goals and enhance overall performance.

KEY PROJECTS

Uddogi (ERP Solution)

Dec 2023 – Present

Ruby on Rails, Javascript, React Runtime, Redis, Tailwind, Aws, Capistrano, Docker

- Led the development of end-to-end VAT reporting workflows, ensuring full regulatory compliance and robust data integrity.
- Designed and implemented complex MIS reporting suites, providing stakeholders with actionable real-time insights.

Decofetch (E-commerce Application) <i>Next.js, Tailwind CSS, Sass, REST API</i>	<i>Jan 2022 – Mar 2022</i>
• Developed dynamic product customization workflows and feature-rich admin dashboards to streamline operations. • Implemented modern, responsive UI architecture utilizing Tailwind CSS to maximize cross-device performance.	
Dojoteq (Online Training Platform) <i>React, Redux, REST API, Tailwind CSS</i>	<i>Dec 2021 – Jan 2022</i>
• Developed scalable instructor scheduling and comprehensive course management features. • Designed intuitive user dashboards, directly improving platform navigation and student engagement metrics.	
AI-Powered Automation & MCP Orchestration	
• Built custom MCP servers to orchestrate real-time data flow and AI-driven task automation, boosting internal team productivity.	

EDUCATION & CERTIFICATIONS

Northern University <i>Bachelor's in Computer Science (BSc)</i>	<i>Nov 2024 – Present</i>
Rajshahi Polytechnic Institute <i>Diploma in Engineering (Computer Science)</i>	<i>Jan 2019 – Dec 2023</i>
Certified React Developer , Kalpas Innovations Pvt. Ltd.	<i>2022</i>
